Food Grade Statement
Allergen Declaration

We, as Makesafe International, do hereby declare the following:

Mouseshield Classic, Professional and Sakarat Rodentstop are barrier products, which does not contain a toxicant. Therefore they can not be considered pesticide product.

Because Mouseshield and Sakarat contain linseed oil, we advice not to use it for direct or indirect, nor for incidental food contact.

Mouseshield and Sakarat don't contain any of the following items typically considered to be allergens:

- Peanuts
- Tree Nuts
- Milk and products thereof
- Eggs
- Fish
- Wheat
- Crustacean Shellfish
- Molluscan Shellfish
- Soybean
- Sesame
- Celery
- Mustard

Not recommended for human consumption.

Mouseshield Professional is equipped with minuscule stainless steel metal particles that are completely incorporated into the paste. A metal detector will be able to find these particles.
